INTRODUCTION

●

During the past few years there has been a growing demand for exterior lighting fixtures that have not only beauty, but quality and durability as well.

THE HERWIG COMPANY, established over 28 years ago, was one of the pioneers in the introduction of outdoor lighting, and due to this experience, is well qualified to meet the requirements of both Architect and Owner.

●

The fixtures in this catalog which number over two hundred, cover a wide range—from the small ceiling porch light, 3 inches deep, to lighting standards several feet high.

Whether it be a sturdy lighting standard for a large bridge, a beautiful entrance bracket to a church or school, or an attractive little lantern to brighten the home, it can be found in these pages.

Recognizing the modern trend, we have shown a few fixtures along these lines. Owing to the great variety of our designs, many architects have been able to find what they wanted and save the cost of patterns.

However, we are always glad to give a quotation on any special designs on request, where a sketch or blue print is submitted.

"HERWIG" fixtures are dipped in a special prepara-

tion, made from our own formula, which ensures a complete coat of paint on the fixture, and are then sprayed with a durable lacquer finish.

Any of our fixtures can be had in Solid Bronze. A large percentage of our sales are now Solid Bronze fixtures.

QUALITY is one of the outstanding features in our fixtures. Every little detail has been worked out with the most minute care—no rough edges, no crude castings, no weak parts and no uneven joints. "HERWIG" adaptability has been the foremost thought in the development of our products. The "HERWIG" patented method of construction permits quick and easy wiring. All openings are fitted with $\frac{3}{8}$ and $\frac{1}{2}$ -inch nipples.

They respond to every demand from the standpoint of Beauty, Design, Finish, Practicability and Cost.

GENERAL INFORMATION

In Closely Following These Instructions for Ordering and Shipping, You are Assured of Prompt Service

IMPORTANT—State Number, Finish, Glass, Size of Holder and Shipping Instructions

Prices Subject to Change Without Notice

PRICES

The prices in this Catalog supersede all former prices.

FINISH

STANDARD FINISH—IRON. Dull Black or Mottled Green. Be sure and state which. Unless otherwise stated, Black Finish will be furnished with Crystal Moss Glass, and Mottled Green Finish with Hammered Amber Glass.

SOLID BRONZE—Statuary Bronze finish, not polished or chased.

SPECIAL FINISHES—IRON. Dark Bronze add 10% on orders over \$20.00. Less than \$20.00, add 20%.

BRONZE—Verde Antique 10% extra net.

GLASS—Crystal Moss, Hammered Amber, or Flashed White Opal. A small additional charge will be added for Cracked Amber Glass.

WIRING AND GLOBES

All fixtures are furnished less globes, sockets or wiring. For prices on globes, see page No. 32.

FIXTURE NUMBERS

Order by number of fixture in catalog. Do not clip or tear illustrations from the catalog.

WEIGHTS

The approximate net weight of the fixtures shown is for cast iron and includes glass panels in lanterns, but does not include weight of globes on globe fixtures. Bronze weights are $\frac{1}{8}$ over the weight of cast iron. Cast Aluminum weights are approximately $\frac{1}{3}$ the weight of cast iron.

SHIP

State how goods are to be shipped—freight or express.

TERMS

Two per cent in ten days—thirty days net. All prices are F.O.B. Chicago. Boxing charges extra at cost.

RATING

All orders from firms not having a sufficient rating must be accompanied by draft or trade and bank references.

C. O. D.

Goods will be sent C. O. D. on receipt of $\frac{1}{3}$ the amount of order.

DAMAGED GOODS

We are not responsible for goods damaged or lost in transportation after obtaining receipt from carriers as having been received by them in good condition. The greatest care, however, will be exercised in packing and shipments will be traced on request.

RETURN

No returns accepted without first receiving our permission to do so.

SPECIAL

All orders and contracts are accepted subject to unavoidable delays, strikes, fires, etc., beyond our control. The following notes explain how different sizes given in catalog for fixtures are obtained:

LENGTH OVERALL

For Lantern Brackets, is the distance from top of spear or knob to bottom of spear or knob or stem, and in Globe Brackets from end of knob or spear to top of Globe Holder.

HEIGHT OVERALL

For Lantern Standards and Pier Lights, is from bottom of base to top of spear, and on Globe Standards, from bottom of base to top of Center Globe Holder.

LANTERN SIZE

HEIGHT size is from top of roof to bottom of lantern frame or flange.

WIDTH—Hexagon—Across corners of lantern.

BASE SIZE

Hexagon or Octagon base—dimensions across corners.

SCROLL FIXTURES

Note: Where size of scroll is given, same size applies to globe, as No. 109-A with a 5x10" scroll is made for a 5x10" globe.

HOLDERS

All fixtures that take a $3\frac{1}{4}$ " or 4" holder are made to take sign receptacle Socket No. 61988, except No. 95-A and B.

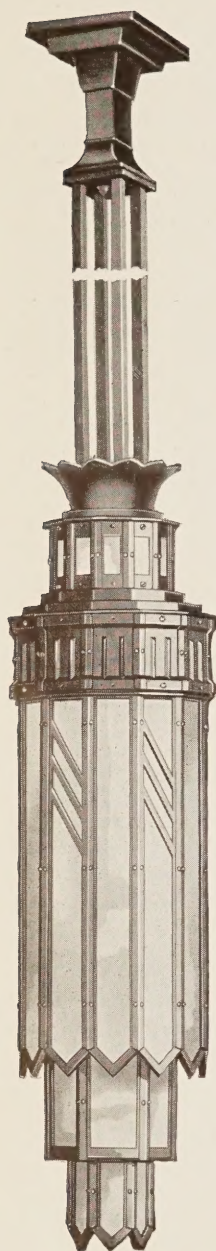

SOCKET BASE

Size of base as $\frac{3}{8}$ " or $\frac{1}{2}$ " or sign socket. All fixtures take porcelain or aluminum sockets.

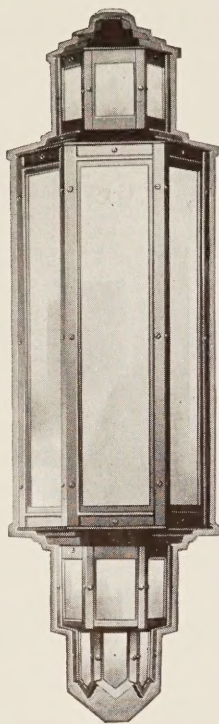

NOTE

An asterisk preceding a number denotes that different sizes and styles can be had. See page 33.

PUBLIC BUILDINGS
FILLING STATIONS

NOTE—State finish, Black or Green. State glass: Crystal Moss, Hammered Amber or White Opal. A small additional charge will be added for Cracked Amber Glass.

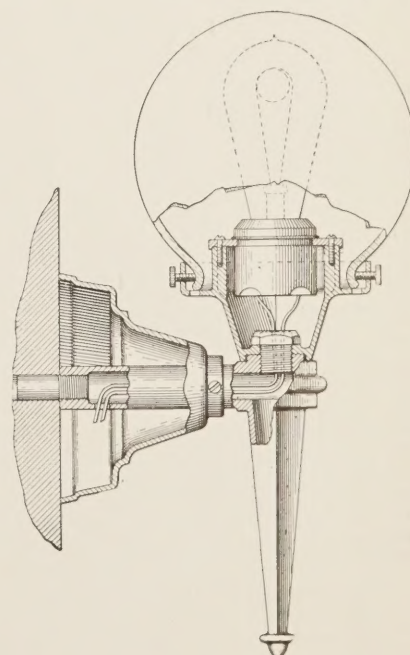

All 3 1/4" and 4" holders made to take sign socket No. 61988.
Globes, sockets and wiring not included in prices.
Prices, F.O.B. Chicago. Packing charges at cost.

"HERWIG" FINISHES

Have earned a reputation for which it stands alone. Our Multi-Coated Process made from our own special formula, we claim by actual test, comes nearer to perfection in its outdoor wearing qualities than any other prepared finish on the market.

"HERWIG" PATENTED WEATHER-PROOF HOLDER

Saves cost on sockets and wiring. The only absolute protection against weather. Globe holder will stand strictest inspection of the underwriters. Also adapts itself to standard No. 61988 Bryant sign socket. Made to prevent water from getting below and short circuiting. Furnished on all brackets that take 3 1/4" or 4" holders.

MEMORANDUM

A series of horizontal lines for writing a memorandum.
